| Sprint 7 | 7 Daily | / Stand- | ups |
|----------|---------|----------|-----|
| | | | |

| 11/15/22 | Are you blocked? | What did you do yesterday? | What are you going to do today | | | | | |
|----------------------------------------------------------------------|---------------------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|---------------------------------------------------------------------|--------------------------------------------------------------------------------|---------|--|
| Sierra | No | nothing | I will start coding authentication | | | | | |
| David | No | I did not do anything yesterday. | I will create unit tests to cover core requirements for authentication. | | | | | |
| Bryant | No | | I will research error har | ndling. | | | | |
| Abhay | No | Low Level Design for Authentication | Changes to LLD for Authentication | | | | | |
| Faisal | no | nothing | BRD | | | | | |
| Tania | | Did not join yet | Did not join yet | | | | | |
| | | | | | | | | |
| 11/16/22 | Are you blocked? | What did you do yesterday? | | | What are y | you going to do today | | |
| Sierra | No | Started coding Authentication validate password and username | Authenticate Generated | OTP and SqlAuther | nticationDAO | | | |
| David | No | I created the unit tests that covers the core requirements for authentications. | I will work on the authentication code. | | | | | |
| Bryant | No | Researched Error handling | I will continue researching about error handling. | | | | | |
| Abhay | No | Changes to LLD for Authentication | Finishing LLD for Authe | entication | | | | |
| Faisal | no | BRD | Input validation | | | | | |
| Tania | | Did not join yet | Did not join yet | | | | | |
| | | | | | | | | |
| 11/17/22 | Are you blocked? | What did you do yesterday? | | | What are y | rou going to do today | | |
| Sierra | No | Authenticate SqlAuthenticationDAO.cs and GenerateOTP function | Authentication Hash and UserProfile and UserAccount table in Database | | | | | |
| | | · · · · · · · · · · · · · · · · · · · | | | | | | |
| David | No | I helped build AuthenticateUser, CheckOtpTimestamp, and generateOTP | | unctions will work a | | uthenication model to make code | easier. | |
| David Bryant | | I helped build AuthenticateUser, CheckOtpTimestamp, and generateOTP Researched Error handling | I will change how the fu | | nd create UserAu | | | |
| | | | I will change how the fu | ments, add new she | nd create UserAu | uthenication model to make code | | |
| Bryant | No | Researched Error handling | I will change how the fu Seperate Scrum docum | ments, add new she | nd create UserAu | uthenication model to make code | | |
| Bryant Abhay | No No | Researched Error handling Finished LLD for Authentication and had relivew meeting with Supervisor | I will change how the fu Seperate Scrum docum Some changes to LLD | ments, add new she for Authentication a istration | nd create UserAu | uthenication model to make code | | |
| Bryant Abhay Faisal | No No no | Researched Error handling Finished LLD for Authentication and had reivew meeting with Supervisor research input validation | I will change how the fu Seperate Scrum docum Some changes to LLD input validation for regis | ments, add new she for Authentication a istration | nd create UserAu | uthenication model to make code | | |
| Bryant Abhay Faisal | No No no | Researched Error handling Finished LLD for Authentication and had reivew meeting with Supervisor research input validation | I will change how the fu Seperate Scrum docum Some changes to LLD input validation for regis | ments, add new she for Authentication a istration | nd create UserAu ets, integrate nev | uthenication model to make code | | |
| Bryant Abhay Faisal Tania | No No no | Researched Error handling Finished LLD for Authentication and had reivew meeting with Supervisor research input validation Nothing | I will change how the fu Seperate Scrum docum Some changes to LLD input validation for regis | ments, add new she for Authentication a istration project proposal | nd create UserAu ets, integrate nev | uthenication model to make code w member to the scrum docume for Authorization | | |
| Bryant Abhay Faisal Tania | No no no Are you blocked? | Researched Error handling Finished LLD for Authentication and had reivew meeting with Supervisor research input validation Nothing What did you do yesterday? | I will change how the fu Seperate Scrum docum Some changes to LLD input validation for regis Read through groups p | ments, add new she for Authentication a istration project proposal | nd create UserAu ets, integrate nev and starting LLD f | w member to the scrum documer for Authorization | | |
| Bryant Abhay Faisal Tania 11/18/22 Sierra | No No no no Are you blocked? No | Researched Error handling Finished LLD for Authentication and had reivew meeting with Supervisor research input validation Nothing What did you do yesterday? Authentication Hash and UserProfile and UserAccount table in Database | I will change how the fu Seperate Scrum docum Some changes to LLD input validation for regis Read through groups p | ments, add new she for Authentication a istration project proposal code at will cover the cor | nd create UserAu ets, integrate nev and starting LLD f | w member to the scrum documer for Authorization | | |
| Bryant Abhay Faisal Tania 11/18/22 Sierra David | No No no no Are you blocked? No | Researched Error handling Finished LLD for Authentication and had reivew meeting with Supervisor research input validation Nothing What did you do yesterday? Authentication Hash and UserProfile and UserAccount table in Database I made created UserAuthentication and edit code to use Result model rather than booleans to add messages also. | I will change how the fu Seperate Scrum docum Some changes to LLD input validation for regit Read through groups p Authentication update of | ments, add new she for Authentication a istration project proposal code at will cover the cor uthentication code | nd create UserAu rets, integrate nev and starting LLD f What are y | w member to the scrum documer for Authorization | | |
| Bryant Abhay Faisal Tania 11/18/22 Sierra David Bryant | No No no no Are you blocked? No No | Researched Error handling Finished LLD for Authentication and had reivew meeting with Supervisor research input validation Nothing What did you do yesterday? Authentication Hash and UserProfile and UserAccount table in Database I made created UserAuthentication and edit code to use Result model rather than booleans to add messages also. Seperated Scrum documents, Integrated new member to the scrum documents | I will change how the fu Seperate Scrum docum Some changes to LLD input validation for regis Read through groups p Authentication update of I will make unit tests the Add error handing to au | for Authentication a sistration project proposal code at will cover the coruthentication code aft one LLD for Authentication code after the c | nd create UserAu rets, integrate nev and starting LLD f What are y | w member to the scrum documer for Authorization | | |
| Bryant Abhay Faisal Tania 11/18/22 Sierra David Bryant Abhay | No No no no Are you blocked? No No No | Researched Error handling Finished LLD for Authentication and had reivew meeting with Supervisor research input validation Nothing What did you do yesterday? Authentication Hash and UserProfile and UserAccount table in Database I made created UserAuthentication and edit code to use Result model rather than booleans to add messages also. Seperated Scrum documents, Integrated new member to the scrum documents Finished a draft one on LLD for Authorization | I will change how the fu Seperate Scrum docum Some changes to LLD input validation for regis Read through groups p Authentication update of I will make unit tests the Add error handing to au Making changes to draf | ments, add new she for Authentication a istration project proposal code nat will cover the cor uthentication code off one LLD for Authentication | nd create UserAu rets, integrate nev and starting LLD f What are y | w member to the scrum documer for Authorization | | |
| Bryant Abhay Faisal Tania 11/18/22 Sierra David Bryant Abhay Faisal | No No no no Are you blocked? No No No No No | Researched Error handling Finished LLD for Authentication and had reivew meeting with Supervisor research input validation Nothing What did you do yesterday? Authentication Hash and UserProfile and UserAccount table in Database I made created UserAuthentication and edit code to use Result model rather than booleans to add messages also. Seperated Scrum documents, Integrated new member to the scrum documents Finished a draft one on LLD for Authorization input validationm for registration | I will change how the fu Seperate Scrum docum Some changes to LLD input validation for regit Read through groups p Authentication update of I will make unit tests the Add error handing to au Making changes to drat input validationm for regit | ments, add new she for Authentication a istration project proposal code nat will cover the cor uthentication code off one LLD for Authentication | nd create UserAu rets, integrate nev and starting LLD f What are y | w member to the scrum documer for Authorization | | |

| Sierra | No | Authentication update code | Authentication EncryptPassword, CreateSalt, an Regsistration CreateUserAccount | | | | | | |
|----------|------------------|----------------------------------------------------------------------------------------------------------------|--------------------------------------------------------------------------------|-----------------------|--------------------|------------------|------|--|--|
| David | No | I created unit test for authorization that will cover the core requirements. | I will start code for Authentication. | | | | | | |
| Bryant | No | added error handling to authentication code | Add new scrum sheets for sprint planning and burndown charts | | | | | | |
| Faisal | NO | input validationm for registration | input validationm for registration | | | | | | |
| Tania | No | Adding business rules on the BRD | nothing | | | | | | |
| | | | | | | | | | |
| 11/20/22 | Are you blocked? | What did you do yesterday? | | | What are y | ou going to do t | oday | | |
| Sierra | No | Authentication EncryptPassword, CreateSalt, an Regsistration CreateUserAccount | Authentication Encry | pt Password, Create | Salt, and Registra | tion CreateAccou | nt | | |
| David | Yes | I started code for authentication but got stuck with using principal object. | I will help Abhay with | changing the low lev | el design for auth | entication | | | |
| Bryant | No | Added new scrum sheets for sprint planning and burndown charts. | Work on LLD Registr | ration and Authentica | tion. | | | | |
| Faisal | no | input validationm for registration | help out with LLD | | | | | | |
| Tania | No | nothing | Helped implement th | e feedback | | | | | |
| | | | | | | | | | |
| 11/21/22 | Are you blocked? | What did you do yesterday? | | | What are y | ou going to do t | oday | | |
| Sierra | No | Authentication Encrypt Password, CreateSalt, and Registration CreateAccount | Work on LL design for authentication and BRD | | | | | | |
| David | No | I help change the Low Level Design for authentication. | I will use feedback from office hours to change the Low level design again. | | | | | | |
| Bryant | Yes | Got stuck working on LLD Registration and Authentication because I needed more knowledge on principal objects. | Research Authentication and principal objects. | | | | | | |
| Faisal | No | Helping with LLD | help with LLD | | | | | | |
| Tania | No | Helped implement the feedback to the BRD | BRD | | | | | | |
| | | | | | | | | | |
